THE CHICAGO DAILY TRIBUNE

BY HENRY FOWLER & CO.

At the Tribune Buildings, No. 53 Clark street, next door South of the Post Office.

TERMS OF SUBSCRIPTION.

THE CHICAGO TRI-WEEKLY TRIBUNE is published Tuesday's, Thursday's and Saturday's, in time for the early morning mails. It is of the same size with the large Morning Daily and contains all the reading matter of two days. This is an excellent edition for residents in the country.

THE CHICAGO WEEKLY TRIBUNE contains all the valuable reading matter of the Daily, comprising the latest intelligence by Telegraph and the Mails, Market Reports, Literary Reviews, one choice Story each week, and excellent Literary articles, and furnishes more reading than the large sheet of the New York Weekly Tribune. It is published every Friday at the low price of $2,00 a year in advance. Ten copies to one address, $15,00. TWENTY COPIES TO ONE ADDRESS $25,00.

CHICAGO DAILY TRIBUNE

The Publishers of THE TRIBUNE deem it appropriate at this time to make a brief statement of their views and plan.

1. The first essential of a good Daily consists in its being a Newspaper, News—accurate, reliable, varied and fresh—is its life blood. The Furnishing its Readers with the latest and best information of each of the manifold changes, incidents and developments, occurring throughout the world, and of special interest to the people of Chicago and the West, will be the leading characteristic of THE TRIBUNE.

2. The candid and thorough discussion of those principles which underlie all facts, is also an essential of a good public journal. In this department THE TRIBUNE will strive to uphold the Truth and the Right. Established on an independent foundation, it will seek to maintain its position by a fair expression of considerate, yet decided opinions. It will plead whatever it regards as lawful, just and sound, and condemn whatever it regards as false, factious and fraudulent.

3. For the efficient carrying out of its design, THE TRIBUNE is arranged in eight Departments, to each of which a competent and responsible person is wholly devoted. Of these the Commercial Department is under the charge of T. A. STEWART, Esq., one of the founders of THE TRIBUNE, whose established reputation throughout the West as a Commercial Editor, saves the necessity of commendation. The Home Department, which is edited by a Lady, has been added lately for the sake of making THE TRIBUNE a welcome visitor to the HOME CIRCLE, as well as to the counting room and the office.

4. Arrangements are completed, for Correspondence, from New York, Washington, Philadelphia, Baltimore, Boston, Cincinnati, New Orleans, St. Louis, and the Capitals and larger towns of our own and neighboring States. Letters will be received also, during the year, from at least four regular correspondents in Great Britain, France, Italy and Germany. THE TRIBUNE'S corps of Letter Writers has been made up with care, and includes gentlemen of undoubted ability, accomplished education, and high standing in the country.

5. THE TRIBUNE will support a system of national policy that shall defend our home interests and maintain our credit at home. It will advocate a discriminating Protective Tariff, Harbor and River Improvements; the donation of the Public Lands to actual settlers; the solution of agitating Foreign Questions by honorable negotiation, unembarrassed by lawless encroachment; direct appeal to the PEOPLE, so far as possible, on public questions and public officers; and the bearing of the South to bear the heavy burdens and heavier responsibilities of its peculiar institution, without irritating interference by the North for its removal, or aid from the General government for its extension.

Its hope of a high destiny for this Land of Freedom is founded on its Faith in Progress as the best Inspirer, in the Past as the best Teacher, in the People as the best Sovereign, in Whig Principles as the best Policy, in Republicanism as the best System, in Christianity as the best Reformer, and in THE WORD as the great arena.

Musical Culture—The Germanians.

A deficiency of musical cultivation, is one of the faults which intelligent and refined travelers from abroad have always found with American social circles. The capacity for improvement in this department of Art, is generally conceded from the character of our people; but the improvement itself is denied, and we think justly. Not that there is any deficiency in the number of persons who undertake to give instructions on the violin, the flute, the harp, the piano &c, &c, nor yet in the number of their pupils—not that money has not at all times, and in all parts of the country, been paid out freely, in large quantities, for musical instruments and musical instruction; but the teachers themselves as a general rule, are deficient in the science of the art which they have attempted to impart to others, and that the pupils and their parents have, as an almost universal rule, preferred just so much instruction as would suffice to "show off" a little in company, by the performance of two or three polkas and waltzes, and the singing of two or three ballads, to the slower and more laborious process of a thorough rudimental course of instruction, and scientific superstructure of music. There have been some brilliant exceptions to this state of the case, among both teachers and learners, we know, but such exceptions have not been numerous enough to strike the observers generally.

With the successive visits of De Meyer, Hertz Vieux Temps, Sivori, Ole Bull, and other eminent instrumentalists, and of Caradori Allan, Sinclair, Phillips, Jenny Lind, Alboni, and various opera singers of note, the deficiency of the music of American circles became glaringly apparent, even to ourselves, and a desire was at once felt for a better class of teachers, and a higher order of instruction. Within a period of eight or ten years, the political convulsions of Europe, combined with a constantly extending knowledge of this desire, have thrown upon our shores, and brought and detained within our cities, East and West, North and South, considerable numbers of gifted and thoroughly educated musicians, who are now the preceptors of our pupils. With this fortunate change, musical education is advancing among us, and a few years, it is hoped, will remove the stigma that has hereto rested upon us in this respect. Another great aid to us, in the matter under consideration, is the presence among us, and the continual passing from one part of the country to another, of such accomplished bands as the Steyermarkers and the Germanias.

The latter company, or society, as they now term themselves, will soon visit us, and the opportunity which will be afforded by their visit, for hearing the music of the first composers should be improved by all interested in the cultivation of the art. Not only should adults attend the concerts, but the young, the pupils in music should be present. It is well known that much of the best music was composed for instruments alone. Haydn composed eighty-two quartetts, and one hundred and eighteen symphonies. The symphonies of Beethoven are his noblest compositions. The same may be said of the other great composers, especially of Mozart. Some of these master pieces of art have for the first time been performed in this country by the Germanias, and most of us are wholly unacquainted with them. Ten of the standard works in Sculpture and painting can be seen in our country. To see them we must go to them, but it is not so with the creations of musical genius. These are brought to us. Not the printed music merely, for this is but ink and paper to most of us, but the artists are already among us, who can embody forth these, and such are the Germanias. No higher compliment can be paid them, than to say that they have this power, that they can present, for example, a symphony of Beethoven in its true and high character, in a way worthy of itself.

The Erie Railroad—Great Reduction.

It was announced to us on Saturday by E. H. Castle, the gentlemanly agent of the Erie Road, that the Directors had just telegraphed to him to the effect that the fare from Dunkirk or Buffalo to New York by this road is reduced nearly 16 per cent, namely, from $6,50 to $5,50.

The Erie road is 460 miles long, and the fare is now brought down to nearly one cent per mile. What more can be asked. We believe in low rates, not only because it is for the interest of the people, and the country, but also for the interests of the roads. The fact is, that the receipts do and will increase, instead of diminish as the fares go down, within of course, certain limits. We understand that Mr. Castle, knowing well, as he does, the western people, entertains this opinion, and has strongly advised the present reduction. The fares to New York on the Erie and the Consolidation line now stand the same, provided one takes the People's line of steamers down the Hudson river, the fare from Buffalo to Albany being $5. The time from Dunkirk to New York is now reduced to 16 hours and 40 minutes, and from Buffalo to New York by the Erie it has been brought down to 14 hours and 32 minutes.

The determination of the officers of this road to satisfy and gratify the public, is manifest, and such a course must and does bring its reward. Notwithstanding the immense business of the road, accidents are rare, and the provisions of safety this year are more complete than ever.—The beautiful and grand scenery through which much of it runs, affords a constant entertainment to the traveler, and must attract to it a very large amount of travel.

Editorial Change.—H. H. Duesbles Esq. of the Detroit Daily Advertiser has retired from his connection with that Paper, which is now in the hands of E. A. Wales Esq., the other partner.

Mapleton, Or, More Work for the Maine Law.—Jewett, Proctor & Worthington, Boston.

We have here another contribution to the great Temperance Reform. Intensely painful and shocking as these "over true tales" are of the effects of intemperance, we feel that in their highest wrought scenes, "the half is not told"—that only those who have experienced such sorrows, have tasted of the venom which the intemperance of friends "infuses into the sources of our blood, into the atmosphere of thought and sentiment, and into all the subtler elements of life."

A New Practical and Easy Method of Learning the German Language [illegible]

We have here two small books, containing the first and second course of lessons, admirably calculated to facilitate the labor of the student in the German Language, who is desirous to read and speak it in the shortest time possible; and also with the help of its pronunciation, to assist those who study without a teacher.

These little works will prove especially useful to those desiring to acquire this language, who are making excursions from home, and do not wish to be burthened with many books, since they contain dialogues and short phrases, easily acquired and retained.

Passion and Principle—A domestic novel, by Mrs. Grey, N. Y. [illegible] Chicago.

Mrs. Grey is an English authoress, who numbers some fifteen or twenty different tales, many of which have enjoyed great popularity. The title of this her latest work, seems to promise an insight into the two leading incentives to human action, both pleasing and instructive.

For late St. Louis papers our thanks are due to Mr. J. A. Van Burkirk of the Rock Island Railroad, and to Capt. Ryder of the Hibernia.

Strong efforts are making in Cincinnati and Pittsburg to suppress gambling. The laws in both States are very severe, and only need to be rigidly enforced to suppress to a great extent an evil so dangerous and destructive.

Editorial Change.—John Mitchell, Esq., of the Janesville Standard has given up his connection with that paper, and is succeeded by Mr. Daniel C. Brown.

More "Wild Cats."—The success of the Atlanta Bank, of George Smith & Co., will soon bring out another flock of young "cats" like that of the Bank of Chicago, started here last year by Seth Paine & Co. We already hear of two, the bills of which will be out as soon as the engravers can do the work. The plates will be very handsome, and taking, like those of the Atlanta, and we doubt not hundreds of thousands of them will soon be scattered among the people. We may safely say, therefore, that our paper currency will soon be entirely of the "wild cat" or Atlanta breed, for no solvent, specie paying institution here can stand a moment against it. Within six or eight months, there will not be a specie-paying bank in Chicago, unless the people make war upon the insolvent trash which now threatens to flood us.

Northern Exploring Expedition.

Gov. Stevens, who heads this expedition, and J. M. Stanley, the Artist, arrived at Galena last Tuesday, on the Michigan, and left for St. Paul the next day on the Nominee. At St. Paul they expect to find their party rendezvoused and nearly ready for movement towards the Rocky Mountains. We hear that the expedition is prepared with everything essential to a complete survey of the country through which they are to pass, and will consist of about eighty persons. Mr. Stanley has spent much time in traversing the western territories, also in California, Oregon and the Sandwich Islands, his object being to form a Gallery of Indian Portraits, and he has now at the Smithsonian Institute, at Washington, the largest and best collection ever made. In many of his travels he was alone, or often accompanied by a single Indian as a guide, and in this way he visited most of the tribes of Oregon. Good conduct on his part always secured him friends and protection with the savage. Gov. Stevens has been fortunate in securing the services of Mr. Stanley.

The papers from the middle and southern parts of the State report the peach crop to be uncommonly promising.

Many of these contractors are men of experience, and in general they are all of the best character that could be selected for the certain and prompt execution of the work. They will soon begin their sections all along the line; and it is the hope of the President and Company, that the track may be laid to Columbia by next spring.

The superstructure was contracted to the experienced firm of Bailey, Broad & Co., who have done much work in New England and Ohio; and who now have seven hundred miles of track-laying in Illinois. This firm takes a large amount of stock, with a full confidence in its value.

South America.

Lieut. Maury to the Memphis Convention.—The letter of Lieutenant Maury has already been referred to, and its importance and interest would authorise the publication of it in full. We give below some extracts:

Turn to the map of North and South America. You will see there that our Continent has, as it were, been stretched out until it has been nearly drawn in two, the two parts being held together in the middle by quite a narrow neck of land. After this pulling asunder, the southern part appears to have been thrust over to the eastward, forming of this neck of land an elbow or bight, in which lies embosomed, midway between the two Americas, that beautiful sheet of water composing the Gulf of Mexico and the Carribean Sea, which I have so often described as our "Mediterranean."

Keep your eye still on the map, and you will see that South America is in shape, a beautiful cornucopia. Consider its mountains, that they are away to the west; look at the number and extent of its rivers, that you may understand how well watered the whole Atlantic slope of that country is, and you will see that, literally and truly, it is destined to be a great horn of plenty. Its mouth is turned right towards us, as though it were ready to pour out of its vast abundance an infinite variety of fruits. Whenever it does pour them out, it will empty them into our commercial lap—that aforesaid magnificent Mediterranean Sea of America.

Turn steam, the emigrant, and commerce, with their influence upon that vast water shed, and you will make of it one vast plantation which will produce for us all that the climate of India affords, and, being at our own doors, will want from us in return everything which we have to spare. And what is it that settlers in a new country do not want? The Rio de la Plata is nearly as large as the Mississippi. The valley it drains is proportionably as great and far more fertile, for it is intertropical, and a canal of a few steps in length, by comparison, will turn the Mississippi of the South completely upside down, also bringing its mouth for all the practical purposes of trade and commerce, into the Amazon. And the two will then, for many other great purposes of State, be taken by the physical agents of the Creator—the winds of heaven and the currents of the sea—and brought to the straits of Florida, there to be united in their great outlet upon the high seas with the mouth of our own Mississippi. What a focus!

The Amazon, as it now exists, gives drainage to six nations. It is the natural outlet to the Atlantic of much of Brazil, of most of Bolivia, Peru and Ecuador, and of large provinces in New Granada and Venezuela.

But the Empire has the strength and the position; she now holds the mouth and will not let the republics go up or come down with their steamboats. They are our sisters. They want our sympathy, and need our assistance in their noble efforts to introduce the principles of free trade upon the Amazon. From the other hemisphere these nations are stretching their republican hands out over their Amazonian tributaries, proclaiming for the waters of that river the freedom of the seas, and inviting the world to come up with the steamboat and river craft, the ax and the emigrants, and open commerce and navigation with their Amazonian provinces, the richest piedmont country in the world. A spirit has gone abroad there, and it is upon the waters of the Amazon.

A little more than two years ago the Federal Government selected a gallant officer of the navy, who was at that time serving in the Pacific, detached him from his ship, first for special service in Lima, and afterwards directed him to explore the Amazon from its sources to its mouths, to sound its depths, and to guage its capacities, present and prospective, for navigation, trade and commerce.

That expedition has stirred up the people in the Spanish Republics of the Amazon. The President of Bolivia has taken the lead in the matter, and proved himself a statesman of the first order. He has thrown the Amazonian provinces of that republic open to the commerce of the world, he has proclaimed the freedom of the seas for the Amazon and its tributaries, and has offered a prize of $10,000 to the master of the first steamer that arrives there from the ocean.

Peru has caught the same spirit; she too is about to proclaim the freedom of the seas for her Amazonian water-courses. She is organizing territories there, and has placed in the hands of the executive $200,000 for the purpose of encouraging immigration and settlement.

Ecuador, too, is moving in the same direction, and I expect the next mail to bring me good news from her, and from New Grenada also.

Miller, from Mississippi, is in Bolivia; Cushing, of Indiana, is in Ecuador; and J. Randolph Clay, one of the most accomplished diplomatists that has the honor to represent this government at any Court, is in Lima. These functionaries are alive to the importance of this subject. They regard the opening up of the Amazon to navigation, trade and settlement as one of the great questions of the age; and, we may rely upon it, they will do their duty if we will do ours here.

The measures that I propose are, that we lay the foundations of direct trade and close commercial relations with Brazil and the Atlantic slopes of South America generally, and with the Amazon in particular, and that we set about it now.

The point to which the Convention should address itself is the free navigation of the Amazon, and the establishment of a line of mail steamers between Para, at the mouth of that river, and Norfolk or Charleston, or some other Atlantic port of the Southern States.

Brazil herself has just come out of a long and perplexing war with Buenos Ayres—one of the objects of which was this very question as to the free navigation of a river owned by more nations than one. The La Plata was that river. Brazil owned some of its tributaries, the Republic its mouth; and she fought it open, and so forced her way down, with the high hand and strong arm.

But, upon the Amazon, the Republics own the upper waters—the Empire the lower—and Brazil keeps them closed tight, notwithstanding some of those Republics have thrown their ports open to the world, and invited all nations to come up and trade with them.

Brazil knows that, according to all the principles of right, the navigation of the Amazon should be free. Shall we force it open? No.—Let us try diplomatic suasion; for it may be opened peaceably; and we desire, above all things, to cultivate the relations of peace and friendship with the nations of this continent.

Let us do what, as good citizens, good neighbors, and good men, we rightfully may, to touch the waters of the Amazon with the magic but real influences of steam, its forests with the axe, and its wastes with the plough; for in doing this we establish the foundations of commerce with a country that is alone capable of sustaining the entire present population of the world.

The future of these United States, so far as commerce with Europe may affect it, is charming—so far as our relations with the markets of the Pacific may bear upon it, is vast; but, in so far as it is touched by the Amazon, it is dazzling.

News From Mexico.

Military Revolution at Vera Cruz—The stringent policy of Santa Anna.

New Orleans, May 25, 1853.

The steamship Texas, with dates from Vera Cruz to the 22d inst., has arrived here. She reports that on the 17th a revolution broke out there among the National Guards, in consequence of an order from government to incorporate the Nationals with the troops of the line. The revolution lasted three days, during which business was entirely suspended. The regular troops having possession of both the forts, and the National Guards of the streets and city gates, brisk firing was kept up during the whole time, but the affair was finally ended on the 20th, by the entrance of a large body of regular troops from Jalapa, who took fifty of the Nationals prisoners, when quiet was restored. About fifty of the National Guards were killed, and many wounded.

Our dates from the city of Mexico, are to the 9th inst, at which time government was adopting severe measures against all whose opinions were considered pernicious.

Wisconsin Whig Convention.—A Whig Convention consisting of one Delegate from each Senate and Assembly District in the State, will be held at Madison, on Tuesday, the 7th of June next, at 12 o'clock, M., to nominate candidates to be supported for State Officers at the next General Election.

California—Three Men Executed.—Three men were executed at Sacramento April 28th, for murder. There names are as follows:—Thompson, is 25 years old. He was born in Southampton, Eng., and has parents now living. Stewart was born in the city of Philadelphia, is but 20 years old, and has a mother living there now; has been in this country about two years. Barney Ackerman was 19 years old the day previous to his sentence; he was born in Lancaster Co., Pa., but went in his youth to Oswego Co., N. Y., where his parents now reside; he came from New York city to California about a year since. They are all resigned to their fate, and in fact, convinced as they are of the certainty of death, they are desirous of their end. They all exhibit marked signs of repentance, and have been very kindly attended by Rev. O. C. Wheeler.

Another account says that with the exception of Thompson, they appeared as indifferent as if they were going to a horse race. Stewart and Ackerman smoked segars until they mounted the scaffold.

Life's Changes.—A letter writer speaking of the accident at Norwalk says:

"A deep gloom is thrown over the whole community. I have lost several friends. One, a young lady from Boston, who, only a few days ago, was at Stewart's shopping—full of life and hope, and in anticipation of a delightful summer—now she lies a cold and lifeless corpse.—Her purchase in New York, remain sad mementoes of her taste, and the new and beautiful dresses have given place to the plain and simple white robe. Her joyous laugh, her smiling face, have left us, and she sleeps quietly now, in her grave.

Negro Stampede.—Slaves are running away from Missouri, at the present time, in battalions. Three belonging to Mr. R. Meek, of Weston, ran away on Wednesday of last week—two of whom were afterwards apprehended. They were making for the Plains. Fifteen made a stampede from Ray county, the week before, and took the line of their march for Iowa.—Several were captured in Grundy county, but the larger number made good their escape. It would be a glorious thing for Missouri, if all her slaves should take it into their heads to run away. If she only knew it, they are one of the greatest drawbacks to her advancement and prosperity.—*Alton Telegraph.*

Synod of Reformed Presbyterian Church.

Friday, May 27.

Rev. McLeod resigned his appointment as Prof. of Theology in the Eastern Theological Seminary.

The Committee on Psalmody reported that no communications had been received from sister churches—that the Synod should not allow alterations in the version now used, but should receive any new versions which would be found plain, smooth and agreeable to the text, and asked to be continued.

Rev. Dr. Heron could not vote for it, because it would exclude verbal and syllabic alterations.

Rev. T. W. J. Wylie thought the directions given at the last meeting of Synod forbid tinkering our present version.

Rev. Dr. Guthrie wanted to know what the old version was. In every edition published, some slight alterations were made, tho' they did not injure the sense.

Rev. G. Scott thought this report left the question too open. He thought it was dishonest to take liberties with an author's work. The version we have of the Bible is antiquated. He would not tinker it; but if a better one was produced, he had no doubt the Synod would be willing to receive it.

Rev. Mr. Harshaw thought our present version of the Book of Psalms was not that of Rouse. It had been altered by the church of Scotland.

Rev. J. Levin feared this report might be so construed that copies of the Book of Psalms now used by our people, would be prohibited. He would like to see many antiquated expressions modernized.

Rev. T. W. J. Wylie thought the report did not forbid altering, but did not authorize any altering of it now.

Rev. Dr. McLeod said the late Dr. Black had been trying all his life to find Rouse's version of the Psalms, and could not do it. Ours is not Rouse's version, no more than the Shorter Catechism is Gillespie's Catechism.

Rev. Dr. McMaster said that he had expressed his opinion at the late Synod. He was opposed to this report. He would let the present version stand. Don't take another's work, alter it and still call it his—use it to make a better one from, but don't "tinker" it. We are now united in the use of this—altering it might give entrance to a wedge to divide us. One of the eloquent men of the last generation—one of the most distinguished preachers of his day—who was appointed to amend it, said "Let a man try to make a better version, and he will find it no easy task—if he tries it he will fail."—There is no difficulty in understanding these antiquated works. When a version is brought forward, consider it, and if it be worthy, adopt it. But let the version of the Church of Scotland stand. When we find a better, let us accept it; until then, let the present stand.

Rev. D. Kennedy agreed with the remarks of the venerable father. There should be no "tinkering." Our present version was that of the Scottish Assembly. He would ask whether or not in the act of the Assembly authorizing the use of these psalms, they were not called paraphrases?

Rev. Dr. McLeod said paraphrase was then equivalent to version. The meaning of the word has changed—just as with the word apology. The defences of Christianity written by the early Christians were called apologies.

Rev. Dr. Herron said that our version was not Rouse's, but the version of the Scotch Assembly. They were our fathers. This version is ours. They did not wish us to speak in their antiquated language. We have as much right to alter as they had. We should speak in our modern phrase.

Rev. T. W. J. Wylie, feared the report was not understood. It declares that if another and better version were presented we would accept it. Mr. Herron referred very well indeed to this.

Rev. J. W. Morrison would not touch that venerable document of the Scotch Assembly. But every one who conducts worship in a new place finds a prejudice against it. This is matter of fact. And while he did not wish new versions, he wanted a greater variety of metres introduced into this.

Rev. Dr. McMaster moved as an amendment, the striking out of that part of the report which authorized the continuance of the Committee. He was opposed to authorizing the publishing of other versions in the Banner of the Covenant. He would let the editor publish them on his own responsibility.

Rev. T. W. J. Wylie said they had been solicited to publish them. He was unwilling to do it, to disturb the Church at all, unless Synod was willing.

Rev. Dr. McMaster said they were producing evil effects in those in which they were published.

Rev. A. M. Stewart hoped the amendment would not pass. He was on the Committee. He hoped we felt our ability to extend our Church. This matter presented the greatest difficulty in the way of her progress. There are many good people who like our preaching—like our principles—but who cannot sing our psalms. A few years usage would do away this—but how could they get this practice? If anything can be done to remove this obstacle, let it be done. There is a prejudice against our psalms. Whether just or not, it exists. This hinders our usefulness. Many of you have never felt it.—We do in this region. We are not confined to this version. Let us do all we can to remove this obstacle. Let the Committee be continued. They wish to do nothing contrary to our principles. Let us keep the door open and good will result.

Rev. Mr. Smyth had felt this.

Rev. Dr. Heron, thought the reasons that led to the appointment of the Committee still had force.

Rev. J. McMaster—This Committee was appointed at the instance of other churches. It is presumed they let these bodies know of it, yet no action has been taken. Did not see any good reason for this discussion. If they could act and act efficiently let them be continued. If not, let them be dismissed.

Rev. J. Douglas, Would like the Committee to be continued. Was present in the Associate Reformed Synod while it was in session. Their committee on this subject was continued and increased, and was directed to co-operate with the committees of other churches. The title, more plain, smooth and agreeable to the text than any heretofore used by the Scotch Assembly, would show that they did not regard their action in this matter as final.

Rev. Dr. Herron, Said there were many points in this discussion. No two seemed to look at the same thing. He would move as a substitute that the committee be continued and the report recommitted.

Rev. A. M. Stewart hoped the substitute would not be carried. The report presented something definite. If the Synod does not agree to it, dismiss it; if Synod likes it, entertain it.

Rev. J. Nevin proposed that they would not recommend any alterations or new versions.

Rev. J. Hutchman thought in discussing this question we might speak of our present version—the propriety of using inspired songs wherever found in the Bible or songs of human composition. On this question there is diversity of sentiment—there has been in some places diversity of practice, and he would like to see this question settled now and here.

Rev. D Kennedy favored a new version with a variety of metres.

Rev. J McMaster wished to offer a resolution which would settle the matter. It was that this report be received and the committee continued.

Rev. Dr. Guthrie was sorry that the question had come up. He would have opposed it in last Synod. He would not stop now but but go on and do something.

The previous question having been called for, the vote was taken and the report adopted.

The committee on devotional exercises reported that Synod should spend half an hour every morning in the worship of God, and that on Monday morning two hours should be devoted to this and to hearing addresses on domestic and foreign missions, from Revds. Dr. Guthrie and Robt Patterson.

The reports of the Presbyteries of Philadelphia, Laharanper, Northern India, and Ohio were read, and Synod adjourned.

AFTERNOON.

Other Presbyterial reports were read.

Rev. J. Nevin moved that a committee be appointed to bring in a report against the desecration of the Sabbath by Railroad Companies.

Revds. Nevin, H. McMillan and Mr. H. Alexander were appointed.

Synod then adjourned to give the committees time to prepare business.

LOCAL MATTERS.

Capt. Gunnison, who is to take charge of the Central route for a railroad to the Pacific, arrived in town on Saturday, on his way from Washington to St. Louis.

Mad Dogs.—The following petition to the Common Council has been put in circulation We trust that some effectual course will soon be adopted. Do not wait for some one else to be bitten.

To the Hon. Mayor and Common Council of the City of Chicago:—

Your petitioners beg leave to represent that the presence of rabid dogs has become alarmingly frequent in our city, and therefore pray that you would pass an ordinance embracing the following provisions:

First—To outlaw all dogs found in the streets, and authorize all persons to kill them with bludgeons or other weapons not dangerous to our citizens.

Second—Pay a bounty of not less than fifty cents for every dog killed within the city limits.

Third—Impose a fine of not less than five dollars upon the owner of any dog that is found at large in the streets, and in default of payment imprison such owner for a term of not less than ten days

Or if in your wisdom you can adopt any other measures that will be more effectual, we earnestly pray that you would adopt them: and your petitioners, as in duty bound, will ever pray, &c.

New Planking.—On Saturday, the planking of North Wells street, from the bridge to Kinzie street, was finished, and is unquestionably the best piece of work of that kind in the city. Immediate measures should be taken to extend it to Chicago Avenue.

Extremes Meet.—The large and small women drew a great crowd on Saturday. Many were in from the country. They will be on exhibition again to day, and illustrate very forcibly the short, yet at the same time great truth, that extremes will sometimes meet.

Temperance.—Rev. R. S. Crampton, Agent of the American Temperance Union, will give a lecture on the "Maine Law," this Monday, evening, in the First Presbyterian Church, at 7½ o'clock.

Ballad Entertainment.—On Saturday evening we, in company with several of our citizens, were favored by Mr. Turner with a rehearsal of several of the songs which he proposes to sing on Tuesday evening next, at Tremont Hall.

Mr. Turner was at the time laboring under the disadvantages of having no instrument to accompany him and having just arrived from a tedious journey, but he acquitted himself to the gratification and delight of all present, exhibiting vocal powers of a high order and under excellent control.

Most of the pieces selected we have long been familiar with, but Mr. Turner possesses the happy faculty of developing beauties in each that makes it new again.

He sings with that happiness of expression that makes the listener feel the sentiment of the music, and our old friends—"I would not die in Spring time," "The Old Arm Chair," and "The Angel's Whisper" assumed features of beauty new and touching.

All present appeared to be highly gratified, and we doubt not that all who will visit Tremont Hall, on Tuesday evening, will be equally pleased.

"Honor to Whom Honor is Due."—The Michigan Southern Railroad Company refuse George Smith's Atlanta wild cat bills, in payment for freights and fares. That is commendable. Will the Michigan Central and the Galena companies follow the example? If they will, the wild cat brood will be effectually exterminated, for the whole derive their life from their common head and father, George Smith, of Wall street.

New Iron Planing Machine.—B. F. Hays, Esq., of this city, has invented what promises to be a great improvement on the machines now used in planing iron, a department of work that is daily becoming more extended and important. In the machines now used the chisel cuts only one way, and the return or back movement is lost. Mr. Hays instrument saves this loss, as it cuts both ways equally well. It is also intended to work with two or more chisels, and the operator can put in a cutting and a finishing chisel, and so complete the work with one motion.—The inventor thinks that the time will be reduced to one-fourth of that which is now required, and if so the invention will be one of much value. We hope Mr. Hays will put one in use as spedily as possible. The model is to be sent on to the Patent Office immediately.

What's the Point?—Only that Stanley & Hutchins have just received the choicest lot of needles ever brought into the city, the return of a large order of their own on an English manufacturer. The package weighs nearly 250 pounds, and contains 3,000,000 of needles.—Among the various sizes and sorts, is a new one, the eye of the needle being inlaid with gold, which wholly prevents it from cutting.—They are necessarily more expensive, but will be great favorites.

For the World's Fair.—On Saturday, Messrs. Houghtelling & Shepard received, from St. Louis, a consignment of forty-seven, packages, to be shipped to New York, and intended to be exhibited at the Fair. Among them was a large boulder of iron ore, taken from the great Iron Mountain, near St. Louis. The mass weighed about 200 lbs, and was almost pure iron.

The Theatre—Mr. McMillen's Benefit.—On Friday evening last, Mr. McMillen and his accomplished lady gave their farewell at the Theatre. The house was crowded from floor to ceiling—a spontaneous and appropriate testimony to their professional abilities. In parting with them, a number of the patrons of the drama in this city, presented to Mrs. McMillen (by Mr. Rice,) a splendid gold watch and appendages, as a token of their esteem for her talents and private worth.

Of all Mr. McMillen's various impersonations, *Falstaff*, in Shakespere's Henry IV, was undoubtedly his most "palpable hit;" for the fat knight kept the house in a perfect roar for over two hours.

In leaving the Chicago Theatre, these *artistes* create a void which it will be difficult to fill up. Their successors must look how they comport themselves, for this lady and gentleman, to whom the Theatre goers have reluctantly bidden adieu, are an ornament to the profession—will be appreciated wherever talent and modest worth are of any account—and we know the Clevelanders will give them, what they so well merit, a most cordial welcome.

A Mystery Explained.—Saturday was hot and dusty, and people walked the streets listlessly. It was noticed, however, that nearly all who came down the north side of Lake street, west of Clark, looked refreshed and vigorous, and walked with an elastic step. This was indeed a mystery, and we determined to fathom it. Proceeding up the street until we came in front of No. 144, crowds of people with tired expressions of countenance were walking in, and returning in a few moments with brightened faces. We walked in, took a glass of Reed's delicious iced soda, and—the mystery was explained!

For the Tribune.

Cleanliness—Good Suggestion.

Messrs Editors:—As the season has now arrived when a thorough system of cleanliness should be put into execution for the health of our city, a suggestion or two may not be amiss. Why cannot a system be established upon our main streets and especially those which are planked, for each one to have the street cleaned and swept regularly once in each week, in front of their own doors, and a thorough system of sweeping sidewalks at least once in each day and as much oftener as time will permit. Merchants can then have clean stores and clean goods, the ladies can promenade without injury to their dresses, and we as citizens can enjoy the good name of having as neat a city as any others who may visit us.

NO FAMILY SHOULD BE WITHOUT THEM.

We speak of M'Lane's Liver Pills, which have become an indispensable Family Medicine. The frightful symptoms which arise from a diseased Liver manifest themselves, more or less, in every family; dyspepsia, sick headache, obstruction of the menses, ague and fever, pains in the side, with dry, hacking cough, are all the results of hepatic derangement—and for these, Dr. M'Lane's Pills are a sovereign remedy. They have never been known to fail, and they should be kept at all times by families.

Directions.—Take two or three going to bed, every second or third night. If they do not purge two or three times by next morning, take one or two more. A slight breakfast should invariably follow their use.

The Liver Pill may also be used where purging is simply necessary. As an anti-bilious purgative they are inferior to none. And in doses of two or three, they give astonishing relief to sick headache; also in slight derangements of the stomach.

PRIVATE DISEASES—Dr. Atkinson (from the east) has opened an office for the cure of all diseases of a confidential nature. His promises of success are predicated on a practice of over twenty-eight years, in different cities of Europe, and the east. He uses no mercury—charges moderate—treats his patients in a correct and honorable way—has references of an unquestionable character from men of known respectability, and ensures success. All parties consulting him by letters or otherwise, will receive the best treatment and implicit secrecy. Medicines sent to any part of the country free from observation.

Seminal emissions, the consequence of self-abuse. This solitary vice, or depraved sexual indulgence, is practiced by youth of both sexes, to an almost unlimited extent, producing with unerring certainty the following train of morbid symptoms, unless combatted by scientific medical measures, viz:

Sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears, and noise, like the rustling of leaves, uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, a disposition to shun society, loss of memory, hectic flushes, furred tongues, night sweats, fetid breath, coughs, consumption, monomania, and frequent insanity. The afflicted, on the first appearance of any of the above symptoms, should immediately apply to Dr. A. for relief.

All letters from patients burned immediately after perusal. Females abroad and in the city may consult Dr. A. by letter without diffidence.

The various complicated and distressing diseases incident to females, treated with eminent success. Mothers who have become victims through the depravity and criminality of their husbands, may rest assured that they and their infants can be perfectly cured.

Letters addressed to Dr. A. free of postage, containing a reasonable fee, promptly attended to, and medicines forwarded to any part of the United States and Canada.

Some of the most learned and famous men in the country have been under his charge—men of genius, intellect and power—and in no instance has the strictness of privacy been violated.

Invalids must be cautioned against the illiterate and unlearned in science, who do so much injury by quackery and imposition. The Vegetable Medicines of Dr. D. are now sufficiently established, as the only certain remedy for Venereal complaints, and those who are afflicted with such complaints are seriously warned not to tamper with them by trusting those who practice the above or any other kind of deception.

Dr. D. freely invites all troubled with disorders to call upon him. His charges are regulated by the circumstances of the case. No charge will be made where a cure is not effected. Dr. D. is a regular physician, having devoted many years to the exclusive study of these diseases, comprising, in their various shades, Gonorrhœa, Syphilis, Impotency, Strictures, Gleet, Scrofula, diseases of the bones, &c. Nothing is needed but to call upon him, to make everything satisfactory in a moment. Such is the absolute efficacy of the method of his cure, that he can positively assert that, as soon as once an individual becomes acquainted with the wholesome and certain process. It is but for a man to say he is afflicted, and see himself cured.

The greatest point for the consideration of everybody is, to avoid all communication with persons unqualified to give them relief. Serious and dangerous consequences ensue more than the world is aware of, from the treatment of quacks and impostors.

The only certain way is to visit the Lock Hospital, or Dr. D's office, at No. 150 Washington street, and at once place yourself under his care.

☞ Office will be kept open from 9 A. M. until 10 P. M.

☞ All letters (post-paid) will receive prompt attention. Any person wishing a private room, can be suited, can have it by applying to Dr. D.

NEW YORK, May 28.

No appearance of the Arctic, now in her 11th day.

The *Commercial Advertiser* of this evening contains the following private letter from Paris by the last steamer. As a matter of course the occurrence is not mentioned in the French journals. We give it as received, though it may be exaggerated, the authority however is reliable. "I ought to tell you that the General Marshal of France, St. Arnaud, Minister of War, was arrested last eve by order of the Emperor, for the following reasons:

Gen. Comemes, Aid-de-Camp of the Emperor, found himself in the Cabinet of his Majesty with Gen. St. Arnaud. A sum of 400,000 francs was there and the Emperor entering his cabinet asked for the money, which he intended for the marriage portion of the daughter of St. Arnaud. Gen. Comemes searched everywhere but was unable to find more than 200,000. Whereupon he said to Gen. St. Arnaud, 'you and I only have been here, and it is only yourself who could have taken it.' Finding that he could not deny the charge, St. Arnaud instantly drew his sword and killed Gen. Comemes, the latter having merely time to make a draw, piercing the arm of St. Arnaud. This scene passed under the eyes of the Emperor so suddenly that he had no time to prevent the blow.

The matter is hushed up."

☞ Pain or distress of any kind, whether of gout, rheumatism, headache, toothache, or any other kind of ache, is in all cases caused by impure humors of the blood, which have lodged upon the parts, and which nothing save vegetable purging (purifying) can remove, because by no other means can impurity be driven from the body.

Wright's Indian Vegetable Pills have no superior, if indeed they have an equal, in removing every description of pain; because they carry off, by the stomach and bowels, all morbid and corrupt humors (the cause of disease) in an easy and natural manner. Four or five of Wright's Indian Vegetable Pills, taken on going to bed, will in a short time drive pain or distress of every kind from the system, and restore the body to a state of sound health.

Beware of Counterfeits.

WISTAR'S

Balsam of Wild Cherry,

The Great Remedy for Consumption.

And the Best Medicine Known to Man

For Asthma of every stage, Liver Complaints, Bronchitis, Influenza, Coughs, Colds, Bleeding at the Lungs, Shortness of Breath, Pains and Weakness in the Side, Breast, &c., and all other diseases of the Pulmonary Organs.

A very important disease over which this "Balsam" exerts a very powerful influence, is that of a

DISEASED LIVER.

In this complaint it has undoubtedly proved more efficacious than any remedy hitherto employed, and in numerous instances, when patients had endured long and severe suffering from the disease, without receiving the least benefit from various remedies, and when Mercury has been resorted to in vain, the use of this Balsam has restored the liver to a healthy action; and in many instances effected permanent cures after every known remedy had failed to produce this desired effect.

Besides its astonishing efficacy in the diseases above mentioned, we also find it a very effectual remedy in Asthma, a complaint in which it has been very extensively used, with decided success, even in cases of years' standing.

Chicago Piano Forte Manufactory,
C. KNAUER & SON,
Piano Forte Manufacturers, 131 & 133 N. Clark St.,
THAT which was an experiment a year or two since, is now a fixed fact, the permanent establishment of a
PIANO MANUFACTORY IN CHICAGO.
The experience of the advertisers in their business in Europe and in this country, enables them to fully demonstrate, at this time, to the lovers of music, that Piano instruments of the most elaborate kind, in general use, can be and have been manufactured in Chicago, which in volume, tone, finish and general perfection compare with any brought from the East. To prove this we refer to any who have purchased from us and only ask that they examine them, all of which having given the utmost satisfaction.
Encouraged by the patronage which has been given them, and knowing from long experience the superiority of the style of instrument in their line, one of the Proprietors visited the East a few weeks since, to examine any thing new which has been brought out. [illegible] They invite particular attention to the new styles of Grand Square Pianos.
Persons wanting Organs, Pianos, or any other Musical Instruments in their line, will find it to their advantage to call and examine our stock and prices, as we are confident that we can furnish in quality and style, as good as can be had in the East, at prices much lower than they can be brought here.

ALCOHOL AND PURE SPIRITS.
THE subscribers having purchased the right to use in this city and the neighboring States the Patent Steam Rectifying Machine invented and patented by Charles Delescluze of New York, late of France, have commenced the manufacture of
Pure Spirits, Alcohol,
Cologne Spirits, and Deodorized Alcohol.
Proof 85 to 95 per cent.
all of which they will sell as low as can be purchased in Cincinnati, St. Louis, or New York. For the quality of their articles they would refer to the following certificates given by the Patentee and his associates, for the Rectification of Spirits and Steam Rectifying Machines; merely remarking that the principle of the Machine is such that it produces an absolutely Pure Spirit; free from every kind of foreign matter, and is therefore valuable for the Druggist, the Perfumer, and all those who need a pure, high proof Spirit.
Our Alcohol of 95° we can recommend to the manufacturer of Burning Fluids as being capable of dissolving a larger proportion of Camphene than any other in market.
Office No. 197 S. Water st., Chicago. WILLIAM LILL & CO.
Certificates.
Laboratory of the College of Physicians and Surgeons, New York, Sept. 5th, 1852.
Gentlemen—I have examined the bottle of Alcohol of your manufacture which you placed in my hands for analysis, and find it to be an uncommonly pure article. I have never seen Alcohol so free from every kind of foreign matter. In strength, the specimen which I examined, and which had been considerably exposed to the air, was equal to what is sold in the New York market as 94 per cent.
JOHN TORREY, Professor of Chemistry in the New York College.
New York, Sept. 8, 1852.
We have examined the sample of Alcohol and Spirits, and find it very pure and free from flavor, and well adapted for Pharmaceutical preparations or Perfumery; for which purposes it compares favorably with the Cologne Spirits to be found in our market.
Respectfully yours,
RUSHTON, CLARK & CO.

A CHAPTER WORTH READING.
DR. WEBSTER'S AGUE AND FEVER SPECIFIC, and Remedy for Sick Headache is a mixture, carefully compounded according to the rules of Pharmacy—of therapeutic agents employed successfully by an eminent Physician in private practice, for many years.
Wherever fairly introduced, it has taken the lead of Cholagogue and other preparations, and has been found superior to any thing introduced to the American Public.
Either, for FEVER and AGUE, or SICK HEADACHE, obstinate as they may be, Dr. Webster's Specific is a ready relief. It has not one derogating feature, but every thing to commend it. It contains no Quinine! It is SAFE—it is SURE—it is CHEAP—it is prompt and speedy in performing a RADICAL CURE! Physicians, in their private practice, prescribe it, and certify to its worth, and efficacy, as an auxiliary in their profession.
TESTIMONIALS.
We, the undersigned, citizens of Fort Plain, and vicinity, respectfully certify, that we have used, either personally or in our families, Dr. Webster's Specific for Fever and Ague and Remedy for Sick Headache, and that we never knew it to fail. As a safe, cheap and sure remedy, we commend it to general favor.
Stickney J. Dygert, John A. Flint,
Peter Sickard, Geo. Hopcraft.
We have used Dr. Webster's Specific, for the cure of Ague and Fever in our practice, and from our knowledge of its effects, under our own observation, as well as the reputation it maintains where tried, we can conscientiously recommend it to the public and Physicians.
Simeon Crouse, M. D.
G. H. Brownell, M. D.
We are acquainted with the gentlemen whose certificates are given above, and from what we know of them and the medicine they commend, we believe their statements perfectly true.

THE CHICAGO TRI-WEEKLY TRIBUNE is published Tuesday's, Thursday's and Saturday's in time for the earliest Morning mails. It is of the same size with the large Morning Daily and contains all the reading matter of two days. This is an excellent edition for residents in the country. It will be furnished to mail subscribers at the low price of $4.00 a year in advance.
THE CHICAGO WEEKLY TRIBUNE contains all the valuable reading matter of the Daily, comprising the latest intelligence by Telegraph and the Mails, Market Reports, Literary Reviews, one choice Story each week, and excellent Editorial articles, and furnishes more reading than the large sheet of the New York Weekly Tribune. It is published every Friday at the low price of $1.50 a year in advance. Ten copies to one address, $15.00. TWENTY COPIES TO ONE ADDRESS $25.00.

CHICAGO DAILY TRIBUNE.
The Publishers of THE TRIBUNE deem it not inappropriate at this time to make a brief statement of their purposes and plan.
1. The first essential of a good Daily consists in its being a Newspaper. News, current, reliable, varied and fresh, is as life blood. The furnishing its Readers with the latest and best information of each of the manifold changes, incidents and developments, occurring throughout the world is an object of special interest to the people of Chicago and the West, will be the leading characteristic of THE TRIBUNE.
2. The candid and thorough discussion of those principles which underlie all issues, is also an essential of a good public journal. In this department THE TRIBUNE will strive to uphold the Truth and the Right. Established on an independent foundation, it will seek to maintain its position by the expression of considerate, yet decided opinions. It will uphold whatever it regards as lawful, just and sound, and denounce all that is false, fallacious and fraudulent.
3. For the efficient carrying out of its design, THE TRIBUNE is arranged in eight Departments, to each of which a competent and responsible person is wholly devoted. Of these the Commercial Department is under the charge of T. A. STEWART, Esq., one of the founders of THE TRIBUNE, whose established reputation throughout the West, as a Commercial Editor, saves the necessity of commendation. The Home Department, which is edited by a Lady, has been added lately for the sake of making THE TRIBUNE a welcome visitor to the Home Circle, as well as to the counting room and the office.
4. Arrangements are completed, for Correspondence, from New York, Washington, Philadelphia, Baltimore, Boston, Cincinnati, New Orleans, St. Louis, and the Capitals and larger towns of our own and neighboring States. Letters will be received also, during the year, from at least four regular correspondents in Great Britain, France, Italy and Germany. The TRIBUNE's corps of Letter Writers has been made up with care, and includes gentlemen of undoubted ability, accomplished education, and high standing in the country.
5. THE TRIBUNE will support a system of national policy, that shall defend our honor abroad and maintain our credit at home. It will advocate a discriminating Protective Tariff, Harbor and river improvements; the donation of the Public Lands to actual settlers; the adoption of a just and humane legislation on the subject of Homestead exemption; a revision of the Naturalization Laws; direct appeal to the People, so as to ensure, on public questions and public officers, aid from the South to bear the heavy burdens and heavier restrictions of its peculiar institution, without invading nearer ground by the North for its removal, or aid from the national government for its extension.
Its hope of a high destiny for this Land of Freedom founded on its Faith in Progress as the best Inspirer, in its Past as the best Teacher, in the People as the best Sovereign, in Whig Principles as the best Policy, in Republicanism as the best System, in Christianity as the best Regenerator, and in the West as the great arena.
